Introduction: *Cold Chain Of Tomorrow.*

In an era where food integrity defines brand reputation, Frostore Logistics is stepping forward to bridge the gap between production and the plate. We aren't just building warehouses; we are architecting the infrastructure for a more resilient, efficient, and high-scaled frozen food industry in India. With a focus on precision and a heart for partnership, we are ready to scale alongside the giants of the food processing world.

01

Our Commitment

We operate with a "partnership first" mindset, prioritizing professionalism, safety, and the long-term success of our clients.

02

Our Mission

To empower frozen food manufacturers with secure, temperature-precise solutions that eliminate risk and protect every pallet.

03

Our Vision

We aim to lead the industry through technology-driven, sustainable cold chain solutions that ensure supply chain excellence across the nation.

Core Values

Company Overview

Frostore Logistics Private Limited is a Third Party Logistics (TPL) company designed to cater to the needs of modern-day temperature-controlled storage and handling. We serve various food processing industries of high repute, ensuring safe preservation and efficient inventory management.

Features	Specification
Location	Sabalpura, Detroj - Viramgam Road, Viramgam, Ahmedabad, Gujarat.
Capacity	15,000 Pallets designed for large-scale requirements.
Operations	24/7 operational support with 100% power backup.

Our infrastructure is technology driven for high capacity and secured frozen warehousing.

Advanced Refrigeration: Modern industrial systems engineered for consistent frozen temperature maintenance.

High-Density Storage: Double deep pallet racking to maximize space and efficiency.

**Infrastructure:
Engineering the
Future.**

Climate Control:

Segregated temperature-controlled chambers to accommodate different product

Operational Continuity:

Uninterrupted cooling ensured through 100% power backup and an experienced maintenance

Loading Logistics: Spacious loading and docking bays with dock levellers for smooth material movement.

Frozen Storage Warehousing:

Consistent sub-zero environments tailored to specific product requirements. Minimal temperature fluctuation and proper air circulation for uniform cooling. Strict adherence to hygiene and food safety standards.

Specialised Services

Inventory & Stock Monitoring

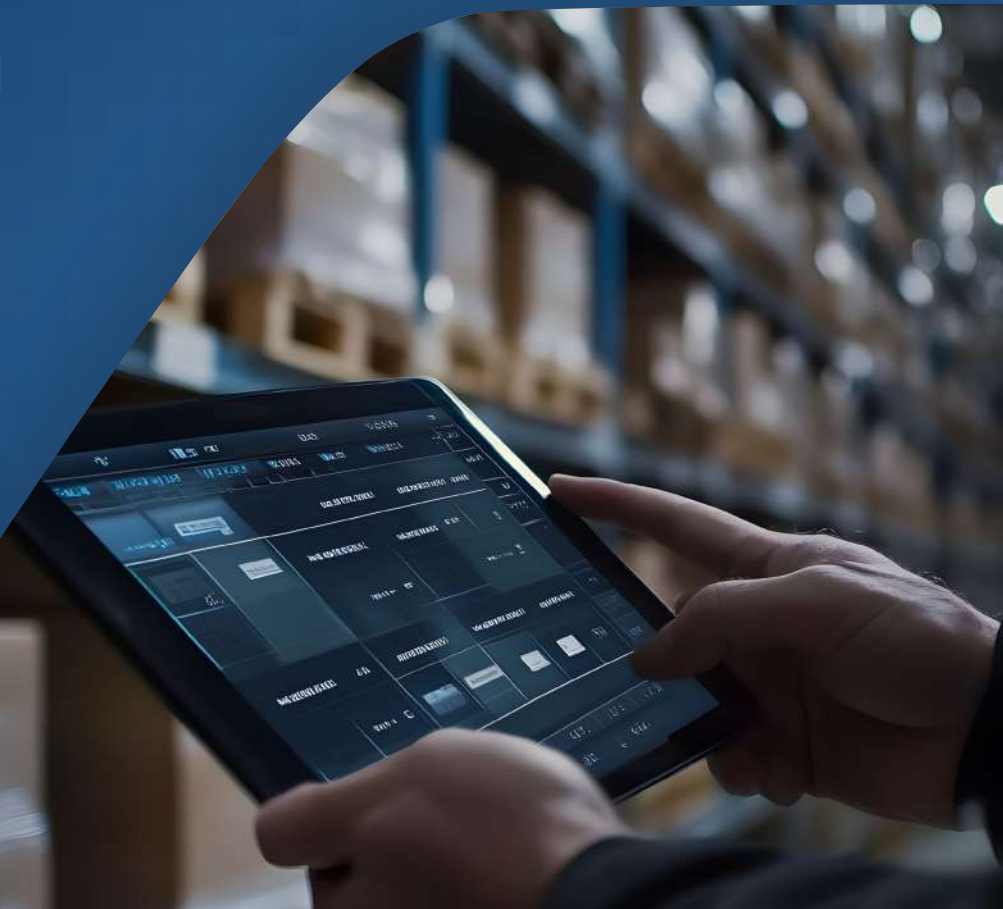

Digital Transparency: Real-time inventory tracking and barcode-based identification.

Accuracy: Temperature-linked stock records and periodic reporting to clients.
Loading & Dispatch Support

Safe Handling: Trained manpower and temperature-controlled loading procedures.

Efficiency: Minimized door-opening times to avoid temperature loss.

Capability: 24/7 temperature monitoring and night dispatch/receiving capabilities.

Why choose Frostore Logistics?

The Strategic choice

We offer a unique combination of location, technology, and scalability that prepares your business for the next level of growth.

Future-Ready Capacity: With 15,000 pallets, we offer the breathing room your brand needs to expand.

Digital Leadership: We manage inventory with a tech-forward approach, providing data-linked stock records for total control.

Total Protection: From 24/7 CCTV surveillance to 100% power backups, your inventory is in the safest hands in the industry.

Conclusion: Partnering For Frozen Future

At Frostore Logistics, we don't just see pallets; we see the future of your brand. As we continue to scale our operations and integrate the latest in cold chain technology, our promise remains the same: to be the reliable, innovative partner you need to conquer the market. Let's build a more efficient and quality-driven future together.
